Summary

- * Ensure all cloud and on-premise solutions follow security and compliance controls
- * Lead and plan the day-to-day execution of infrastructure and cloud operations, policies, processes
- * Build and implement processes to ensure high availability and scalability
- * Excellent knowledge of Windows & HPE Servers, including DNS, Active Directory, Storage, Firewalls and load balancers
- * Lead on escalation and ensure issue prioritization procedures are followed, and SLAs are met, Team member and services growth
- * Operate and maintain traditional IT infrastructures, cloud ecosystems, and IT services to meet needs; handle physical, virtual, and cloud data centres and connectivity solutions; oversee systems and services maintenance and security
- * Work with teams to identify and resolve detailed operational challenges that impact the customer experience and business results
- * Continuously analyse operations and find opportunities to improve service levels and reduce costs
- * Ensuring adequate measures are in place for contingency & disaster recovery.

Experience

Senior Infrastructure Engineer

Snapp!

Dec 2017 - Present (3 years +)

-Install and maintain all infrastructure equipment at Snapp locations and data centers such as network equipment, servers, hardware and software in use at Infrastructure.

-Perform server and network administration on Windows servers, Active Directory (DNS, DHCP, Group Policies, OU structure, site replication), DFS, IIS, MS SQL, VMWare ESX, Citrix, firewalls, backups, LAN/WAN, and firewall equipment.* I'm manage and support the day to day infrastructure operations of on premise and cloud-based business applications, IaaS solution and managed DCs

Senior Infrastructure Engineer

Favaafzar

Jun 2016 - Jan 2018 (1 year 8 months)

Designing and planning the network

Setting up the network

Maintaining the network

Expanding the network

Senior Hardware Engineer

Falnic (IranHP) - فالنیک، ایران اچ پی

Nov 2014 - Jun 2016 (1 year 8 months)

-Design and develop network architecture and corporate information systems.

- Create cable layouts with tags and diagrams that allow other engineer staff members to quickly troubleshoot and resolve connectivity issues.
- Manage the planning and implementation of information systems security, anti-virus, and data protection software.
- Maintain, update and support business LAN network cabling, fiber optics, switches, routers, servers, and various network devices.
- Research and implement new innovative technologies that are capable of enhancing business productivity or reducing expenses.
- Strong knowledge of network hardware including servers, storage, routers, and other computer devices
- Maintained over 50 servers with full responsibility for 100% system uptime.
- Designed, implemented and management hosted server applications.
- Planned and built redundancy into existing systems to eliminate downtime due to server failure.

Branch Sales Manager

Jan 2012 - Oct 2013 (1 year 10 months)

Education

Islamic Azad University

Master of Technology - MTech, Computer/Information Technology Administration and Management

2014 - 2017

University of Qom

Engineer's Degree, Information Technology

2010 - 2014

Licenses & Certifications

Microsoft Certified IT Professional - Microsoft

Certified Ethical Hacking - EC-Council

MTCNA - MikroTik

1506NA1026

Network+ - CompTIA

SAN (UC434) - Hewlett Packard Enterprise

Fortinet Network Security Expert Level 1: Certified Associate - Fortinet

8ALHK8lw2H

Fortinet Network Security Expert Level 2: Certified Associate - Fortinet

yOgoWWhgqg

Aviatrix Certified Engineer - Multi-Cloud Network Associate Course - Aviatrix

cert_9m4fpqpl

Cloud Computing (Cloud 101) - Coursera

34WU5TQ22NCQ

cPanel Professional Certification (CPP) - cPanel

3da2-d6e5-17b1-a5f0

Jenkins - CloudBees

ajx6etxg2hdw

Jenkins Pipeline - Intermediate - CloudBees

x4sdhfid32xw

Alibaba Cloud Fundamental Product - Alibaba Cloud Academy

Issued Feb 2020 - Expires Feb 2022

CDW062201100039429

Google Cloud Identity - Coursera

YWD244APETH6

AWS Well-Architected - Amazon Web Services (AWS)

1T5HVtvhaECHQlutFSAc4g2

Skills

Network Administration • Datacenter Solution • DataCenter Configuration • Network Security • TCP/IP
• Firewalls • Troubleshooting • DNS • Web Services • Server Administration
